 PIETRA  LAVICA

COLLEZIONE INTRAMA

{ SCARLATA }
 PIETRA  LAVICA

Materia tradizionale e dettagli contemporanei. La collezione **INTRAMA** intesse abilmente svariate composizioni di linee e disegni che, sulla pietra lavica, danno come risultato un inedito equilibrio tra materia e decoro.

Traditional material and contemporary details. The **INTRAMA** collection of lava stone tiles deftly weaves different harmonious compositions, incorporating playful textures and distinctive features into an alluring balance between matter and decor.

COLLEZIONE INTRAMA

Ogni pezzo della collezione è realizzato in maniera artigianale da personale altamente qualificato ed esperto, con controlli effettuati in ogni fase della lavorazione.

Le eventuali imperfezioni non sono da considerarsi difetto, ma pregio a garanzia dell'estrema naturalezza e artigianalità del manufatto. Lo spessore delle mattonelle potrebbe presentare variazioni di circa 1mm tra una fornitura e l'altra. L'intera gamma di colori utilizzati è altamente resistente all'usura e all'attacco di sostanze acide e/o abrasive. Il fondo colorato garantisce una copertura totale contro tali attacchi, mentre quello in pietra lavica naturale (#00), se usato a pavimento, va trattato con specifiche finiture superficiali quali cera o idrorepellente, per assicurarne la durata nel tempo. Per i decori indicati con il simbolo *scegliere due colori tra quelli indicati in tabella. "decoro/ tile pattern".

Per ulteriori dettagli sulle modalità di posa e di utilizzo contattare info@sgarlata.it

Each piece of this collection is made in the handcraft way by highly qualified and experienced staff, with strict checks during entirely productive process.

Any imperfections should not be considered as a defect, but as a quality in order to guarantee the extreme naturalness and craftsmanship of the artifact. Thickness of the tiles may contain variations of about 1 mm between different supplies. Entire range of colors used is highly resistant to wear and to attack by acids and / or abrasive substances.

The colored background provides coverage against such attacks, while the natural lava stone (# 00), when used on the floor, should be treated with special surface finishes such as wax or water repellent, to ensure its durability. For tile patterns indicated by the symbol * choose two colors from those indicated in the table. "Decoro / tile pattern."
